ABOUT

I'm a fullstack developer oriented on front-end, cares about the client side, but I dive into the server side as well. I have solid knowledge and experience with JavaScript + TS, Vue(Nuxt) + React(Next). Backend stack: Node js (Express, Nest). For additional knowledge, see the resume. I have excellent problem-solving skills, adhere to deadlines and always strive to update my knowledge, work with new tools and technologies. I am looking for a job in a nice company where I can grow and improve my results and contribute to the company.

SKILLS

FRONT:

- HTML5 + CSS3 + CSS-preprocessors
JavaScript + TypeScript
- Vue + Vuex + Nuxt
React + Redux + RTK Query + Next
- Tailwind + Bootstrap
MUI
Figma + Photoshop

BACK:

- Node JS
Express
Nest

DB:

- SQL: PostgreSql
Non-SQL: MongoDB
- TypeORM

OTHER:

- Git + GitHub
- Docker
- AWS
- Netlify
- JWT + Auth0
- Jest
- Swagger
- Postman
- i18n

EXPERIENCE

- 2 years of non-commercial
- 3 month of internship in Meduzzen company (Next + Nest Stack)

SOCAIL NETWORK

This is app where you can create your own company, add members and appoint admins. You can create quizzes, members of your company can pass quizzes and get rating. In this project uses technologies such: Next + RTK Query. Nest + PostgreSql.
Back-end: github.com/K-ara-puz/meduzzen-back
Front-end: github.com/K-ara-puz/meduzzen-front

KULTURA 2K

This is project of online shop. With my team we were working on it, but the customer is not yet ready to go into production. In this project uses technologies such: Vue + Vuex. Symfony + MySql.
